Main Features – 10,000 Litre Waste Tank

- Robust construction, fabricated from 4mm mild steel
- Ideal solution where there is no access to a main sewage line
- Can easily be plumbed in to your welfare unit
- Will fit under most welfare cabins to conserve space on site
- Lifting eyes for easy transport
- 6 inch inspection hatches – located in each corner
- Easy wet waste removal due to large inspection hatches
- Can be plumbed in to more than one welfare unit
- Weight when empty: 1.2 tonne approx

All tanks are subject to availability, and bespoke tanks can be made upon request. These are above ground tanks but can be buried as long as the top of the tank isn't covered and is visible - they can be flush to the ground. If you need a tank to be fully buried please let us know your specific requirements when ordering so we can supply you with the most suitable tank. Please note that this tank will need to be sited on flat hardstanding ground.

Please note that site are responsible to ensure suitable ground conditions for a tank for burial to lid level.
