

Dimensions: 3.6mtrs Tall x 2.88 mtrs Wide x 4.2 mtrs Long

Main Features

- ❑ The robust construction makes our shower trailers ideal for the demands of the event and construction industry.
- ❑ Self contained shower block allows up to 4 people to shower in complete privacy.
- ❑ Simply connect to electricity, bottled gas, water supply and waste water run off.
- ❑ Compliant with HSE regulations.
- ❑ Galvanised fold down steps are attached to the unit.

We can help with water feed in and waste water drain off including **pillow tank hire**, **water bowser hire** and **waste tank hire** as well as **bulk water deliveries** and a **Tardis fitter** to connect the unit for you.

Set up and hot running water in under 10 minutes! Click this picture to watch our demonstration video.

RUNNING STATS
 Power consumption 3.7 amps
 Water consumption 32 litres per minute max.
 Gas consumption 3.86kg per hour max.

Dimensions: 3.6mtrs Tall x 2.88 mtrs Wide x 4.2 mtrs Long

Cubicles

- Shower tray
- Shower curtain
- Built in thermostatically controlled shower head
- Mirror
- Separate dry area for changing and hanging clothes
- Bench seat
- Ceiling lights
- Floor drain
- Ventilation

Technical

- Consumer unit with electrical certificate
- 230 volt – 16amp electrical inlet
- 70mm waste connection
- 3/4 inch water inlet
- Rinnai gas heater compartment with 240 volt heater
- Gas storage compartment
- Gas Safe certificate
- Header tank storage option with water pump
