

**Dimensions (WxLxH) M – 2.5m x 5.5m x 2.5m**

### Product Overview

Perfect for dust suppression on large areas across site with a wide spray pattern and large 6000 litre capacity it's the best solution where large plant is available to tow on site. With its plastic tank it can also be used for moving bulk clean water on site. It has a petrol-powered pacer pump to ensure a good spray pattern. **Hydraulic braking available if the towing machine is capable, such machine must be 10tonne and above as the MGW of this unit is 8tonnes.**

### Technical Spec

- Laden weight – 8000kg
- Capacity – 6000 litres
- Petrol pacer pump.
- Visible sight glass at front of tank.
- Hydraulic braking (optional)
  - Ratchet handbrake
  - Winding jackleg
- Plastic durable water tank
- Wide spray pattern for ultimate dust suppression
  - Bottom or top fill
- Fittings adaptable to suit
- Towing eye connection

The pumps used on these aren't compatible with E10 petrol and must be used with E5 petrol. Any call outs in relation to this will be chargeable to the customer, as we would need to drain and replenish each engine with the new Super unleaded fuel to run correctly.
