

## Dimensions (WxD) M – 2.5M X 1” TUBE

**Product Overview**  
 Simplifying dust suppression, not much can go wrong with the dust bar. No engine, no maintenance and no theft. This can be used with an IBC and forklift without soaking pavements and driveways also. Perfect for soaking roadways and other public areas. Water will go a long way with the dustBar application.

- Technical Spec**
- 5.5mm drain points every 50mm for good coverage.
  - 2.5m wide so approx. the same as a vehicle so roads can be covered safely.
    - Completely gravity run.
    - No complications.
  - Similar could be modified for larger tanks if required.
