

Dimensions: 455mm Long x 365mm Wide x 420mm High

******These pumps aren't compatible with E10 petrol and must be used with E5 petrol (super grade fuel) only** Any call outs in relation to this will be chargeable to the customer, as we would need to drain and replenish each engine with new Super unleaded to run correctly******

Main Features

This pump is designed to deal with large volumes of water and to move it quickly. The WB20 is a robust and durable water pump, many thanks to its heavy-duty protective frame. The water pump is powered by a Honda GX engine, which is renowned for its high performance and fuel efficiency. The WB20 has a cast iron impeller, which will provide extra durability.
