

Dimensions: 4.9 mtrs L x 2.2 mtrs W x 1.9 mtrs H

Model Custom L100 swb

Main Features

Our mobile testing and cleansing service van has everything needed to provide premium cleansing and testing service on site.

Equipped to complement our growing range of cleaning services, this vehicle carries its own water supply and high power pressure washer which can be used in association with our deep cleansing and chlorination services of bowlers and water tanks on site.

The vehicle also carries water testing equipment so we can test and cleanse your water supply facility all the same time if necessary.

Just add our roving water hygienist and you're set to go.

Equipped for:

- Water testing and sampling
- Water tank cleansing
- Water bowler cleansing
- Water conditioning services
- Chlorination services
