- Alternatively, it can be connected to a 10kV Generator.

Unit colours may vary

This unit requires professional connection to mains electricity, a water supply and may require additional pipework to complete the installation. Tardis can provide a fitter and quote to complete the job, please discuss this with the hire desk at the time of booking.

NEW Gas shower trailers now available for hire

Up to 4 people can shower and change in complete privacy.

Unit sets up in less than 10 minutes – click the pic for a video demonstration
