

Dimensions: 510mm Long x 385mm Wide x 455mm High

## Main Features

This pump is designed to deal with large volumes of water and to move it quickly. The WB30 is a robust and durable water pump, many thanks to its heavy-duty protective frame. The water pump is powered by a Honda GX engine, which is renowned for its high performance and fuel efficiency. The WB30 has a cast iron impeller, which will provide extra durability for handling water that contains a certain amount of silt and sand, which you would encounter on a construction site.

## Technical Specifications

<input type="checkbox"/> Max Output Capacity	1100 litres/min	Inlet/Outlet Diameter	80mm (3")
<input type="checkbox"/> Total Head	28m	Suction Head	8m
<input type="checkbox"/> Pressure	2.8Bar	Debris Size Capacity	6mm
<input type="checkbox"/> Fuel Tank Capacity	3.11 litres	Operating Time	2h50 Approx
<input type="checkbox"/> Dry Weight	27KG		

Tardis can supply most configurations of valves and hose fittings. Please specify when calling.
