

Dimensions: 415mm Long x 360mm Wide x 405mm High

Main Features

This pump is designed for a variety of applications requiring high pressure performance with lower flow, ideal for sprinkling, jetting, long-hose irrigation or fire fighting applications. The WH20 is a robust and durable water pump, many thanks to its heavy-duty protective frame. The water pump is powered by a Honda GX engine and has a cast iron volute and impeller, which will provide extra durability.
