

Dimensions: 7.3 mtrs Long x 2.5 mtrs Wide x 3.5 mtrs High

2" Bauer connectors

2" layflat hose available on request

Main Features

- Suitable for storage of up to 16,000 litres of clean water.
- Can be teamed with an electric on demand water pump for use with site welfare cabins or a petrol water pump to provide a continuous water supply.

This vehicle is suitable for:

- Wash downs
- Water supply for soakaway or percolation testing
- Construction sites
- Events and festivals
- Emergency water supply

Operatives will have:

- Hi Viz vest – Safety glasses
- Hard hat – Latex gloves
- Steel toe cap boots

When full, each wheel will have 5 tonne of down pressure and each landing foot will have 5 tonne of down pressure. The prop that holds the tank to avoid it toppling over, should be no more than 1 tonne of down pressure.

ACCESS: Please review the vehicle dimensions and consider any possible restrictions for width, height etc when accessing your site. Advise us if you believe you might have a problem to enable us to offer an alternative vehicle.

Tanks supplied for **clean water storage** have not been quality pre-treated as per drinking water standards, but are cleaned and prepared prior to deployment.

Tardis tankers trailers are designed to be filled from the outlet, some trailers can be top filled however safety systems should be adopted before any working at height. For professional filling please call Tardis. Tardis Tankers trailers do not come with a sight glass - if you require a flow meter please contact our office for rates.
