Winter Edition

March 2020

## We have a new HQ

Due to our rapid growth over previous months, our HQ has now been relocated from Brownhills to Telford in Shropshire.

Find us at **Site 4, Halesfield 21, Telford, Shropshire TF7 4PA.**

## Reducing our Carbon footprint

With the environment always at the forefront of our mind, we're committed heavily to reducing our carbon footprint! We have invested in staff to work specifically on route optimization to reduce our impact !

Already we have improved our route efficiency by 65% and we're constantly striving for more!

As well as ensuring we get to our customers as quickly as possible we're also doing our bit for the planet!

Everyone's a winner!

## We're now on Facebook!

### We've grown our online community!

We want to make sure our customers can keep up to date with all things Tardis, across as many channels as possible, so you'll now be able to find us on **Facebook!** Like our page to keep updated on our latest products and services!

Are you following us on all of our social media channels?

**SUBSCRIBE TO OUR NEWS AND OFFERS!**

We wouldn't want you to miss out on our news and offers, so subscribe to our e-news today!

We'll be giving away goodies to all of our subscribers!

# New Depot

Due to our ongoing commitment to service our customers as quickly and efficiently as possible, we're excited to announce the upcoming opening of our 14th depot in SOUTHAMPTON this month. The new depot will be located at, **site F14 Cracknore Hard Industrial Park, Cracknore hard lane, Marchwood, Southampton, SO40 4ZD.** This will expand our coverage in providing portable toilet hire and tanker services.

# New & Featured Products

## New FLOOD PUMP

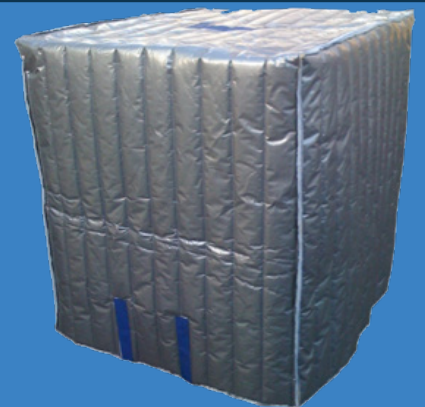

- Ideal for emergency flood water pumping
- Pumps 18,000 gallons per hour
- Can be used on sewage & rain water

**See spec sheet for full info!**

## Featured IBC Thermal Jackets

With the winter months still here, a perfect addition to winter protection is our Thermal IBC Jackets. All sites need water to be open, these jackets will protect your IBC from temperatures between -35° to +75°C. They are made from a rugged cross laminated sheet and are lightweight, tear and fire resistant.

**See spec sheet for full info!**

## New Odourless waste tank

You asked, we delivered, introducing our **NEW odourless** waste tank, get the job done without the smell! Our fitters can even connect it to your welfare unit for you!

**See spec sheet for full info!**

## Featured 20 Bay Urinal

Enquire about our 20 bay urinals for those upcoming events throughout the year. It's a completely self-contained unit which works by a waterless system. It includes a 500-gallon tank (2273 litre) plus requires a 16A 240v power supply which powers the lights and LEDs. In line with keeping it quick, the 20 bay urinal comes with hand sanitizers.

**See spec sheet for full info**

## Featured Fuel Bowser

Popular on construction sites, fuel bowzers basically save money long term, by having a bulk fuel supply on tap, for plant and vehicles. Our 950 litres towable diesel fuel bowser comes with a fill nozzle just like you get at the petrol station, 15 feet of hose and a pull-down lockable lid to secure the fuel.

**See spec sheet for full info**

## Featured Pressure washer Bowser

The pressure washer bowser is the quick, powerful cleaning solution you need when there's no mains water supply and you've got some serious cleaning to do.

Based on a 2000 litre road towable bowser, the addition of a petrol powered pump and pressure lance means you can get stuck in where a mains hosepipe won't reach. The bowser is road towable (subject to your vehicle's towing abilities and driver licence restrictions). This durable unit is a winner for many applications that require cleaning services secure the fuel

# Investments & Improvements

## We're continuing to invest in our growing business!

In 2019 we made several investments into the business. We invested just under 2 million on new vehicles and just under 1 million on plant. We are 100% dedicated to improving our existing customer experience and of course attracting new ones

In addition to this we are working towards our **FORS gold** certification which we should reach by the end of the year, when we acquire a new long wheel base fully electric Mercedes.

We're currently FORS silver certified

## Have you heard about our new customer portal?

We're thinking of implementing a portal to give our customers flexibility to access their account information 24/7, all you need is a Microsoft SQL licence!

- Unlimited access to account information, including
- Contracts, Invoices & financial information
- Provides the ability to email a request for a collection
- Invoices & reports can be viewed and downloaded
- Visibility of contract history
- Enables you to access your data 24/7 in a private & secure website

Ultimately it puts you in control

**What we cover under  
our environmental umbrella.**

# NEED LARGE AMOUNTS OF WATER?

## WE CAN NOW OFFER POTABLE WATER TANKS, FROM 15,000 TO 90,000 LITRES!

**call us for a quote 0800 731 0589**

**15,000 Litre WRAS Approved Potable Water Tank 172229** 2400 dia x 3550 H (mm) 3299 gallons (approx) 15 cubic metres

**16,800 Litre WRAS Approved Potable Water Tank 172230** 2600 dia x 3410 H (mm) 3695 gallons (approx) 16.8 cubic metres

**20,000 Litre WRAS Approved Potable Water Tank 172238** 2850 dia x 3600 H (mm) 4399 gallons (approx) 20 cubicmetres

**20,800 Litre WRAS Approved Potable Water Tank 172235** 2600 dia x 4150 H (mm) 4575 gallons (approx) 20.8 cubic metres

**22,000 Litre WRAS Approved Potable Water Tank 172250** 3450 dia x 2750 H (mm) 4839 gallons (approx) 22 cubic metres

**25,000 Litre WRAS Approved Potable Water Tank 172240** 2700 dia x 4650 H (mm) 5499 gallons (approx) 25 cubic metres

**26,000 Litre WRAS Approved Potable Water Tank 172255** 3450 dia x 3200H (mm) 5719 gallons (approx) 26 cubic metres

**30,000 Litre WRAS Potable Water Tank 172260** 3450 dia x 3650H (mm) 6599 gallons (approx) 30 cubic metres

**40,000 Litre Water Tank Combination 172170** 5700 L x 2850 W x 3600 H (mm) 8798 gallons (approx) 40 cubic metres

**Combination 45,000 Litre Water Tank 172175** 7900 L x 3450 W x 3200 H (mm) 9898 gallons (approx) 45 cubic mtrs

**50,000 Litre Water Tank Combination 172180** 7900 L x 3450 W x 3200 H (mm) 10998 gallons (approx) 50 cubic metres

**60,000 Litre Water Tank Combination 172185** 7500 L x 3450 W x 3650 H (mm) 13198 gallons (approx) 60 cubic metres

**90,000 Litre Water Tank Combination 172190** 10980 L x 3450 W x 3650 H (mm) 19797 gallons (approx) 90 cubic metres

### Popular uses include:

- Bulk water storage
- Back-up emergency drinking water supply
- Food industry
- Brewing and wine making sectors
- Temporary water supply for events and festivals
- Domestic water solutions
- Civil engineering applications where mains water is unavailable
